These next questions ask for information to help inform planning for future waves of NPALS. The National Center for Health Statistics (NCHS) recently conducted a Direct Care Worker (DCW) Pilot Study as part of NPALS. We asked directors of adult day services centers to sample and provide contact information for two direct care employees or contract staff. We then invited the sampled direct care workers to complete a questionnaire by mail or web.

35. If we were to invite you to participate in a future DCW Study, would you have access to the following information for your direct care <u>employees</u>? If yes, would you be able to provide us with this information to contact your direct care <u>employees</u>?
