To get a complete picture of the vaccinations received by your [FILL: IF NUMBCHIL=1, DISPLAY: "your child" ELSE IF NUMBCHIL>1, DISPLAY: "your children"], the Centers for Disease Control and Prevention would like to obtain a copy of your child's vaccination records from the doctors or health clinics who provided them. These records contain only the immunizations and dates of the immunizations for your [FILL: IF NUMBCHIL=1, DISPLAY: "your child" ELSE IF NUMBCHIL>1, DISPLAY: "your children"].

[ELSE IF S6=2, 77, or 99), THEN DISPLAY:]

Thank you for the valuable information you've shared with us. We find that it's often difficult to remember specifics about vaccinations. The Centers for Disease Control and Prevention would like to collect the dates and types of vaccinations your [FILL: IF NUMBCHIL=1, DISPLAY: "your child has" ELSE IF NUMBCHIL>1, DISPLAY: "your children have"] received from the doctors or health clinics who provided them.

FAQs

I've already given you the shot dates/Why do you need to contact my doctor?

-- The doctor's office has information about the exact brands or types of vaccines that were given, and this information is needed to track vaccination rates for each vaccine.

-- In order to standardize the type of information that we receive, it is required that we contact providers directly. We also ask providers a few questions about the characteristics of their practice or clinic, so that we can accept only immunization history forms filled out by health care providers.

That's too personal:

-- I understand your concern. Confidentiality is mandated by law and I can assure you that the Centers for Disease Control and Prevention will only receive the immunization information. We remove all names from the immunization information so that neither you nor the child will be identified as a participant.

-- The National Immunization Survey has been conducted since 1994. Each year we receive immunization histories from over 20,000 doctors and clinics; in fact, your doctor may have already taken part.

-- Only the information related to the child's immunization history is requested; no other medical information or identifiable information is included.

What will this information be used for?

-- Information we collect is used to summarize childhood immunization rates in your community and to study vaccine shortages. States use this information to develop health care policies and determine where funding is most needed for federal vaccine programs. With this information, the CDC can also identify where providers are ordering their vaccines and which types are being ordered.

-- The [IF PUERTO RICO DISPLAY "Puerto Rico Department of Health and the Centers for Disease Control and Prevention" ; ELSE DISPLAY: "Centers for Disease Control and Prevention"] uses the information we collect to determine if individual states are meeting the vaccination goals set for them by the Childhood Immunization Initiative.

What are you sending to my doctor?

-- If you'd like to see the form we send to your doctor, I would be happy to send you an email or text you a link to the actual form they receive.

FAQs:

What am I consenting to? What is going to happen if I say "yes" to this?

With your permission, we'll send a letter of consent and an immunization history form to your health care provider. The form shows the names of the vaccinations (like a shot card), and they will fill in the specific type and date for each immunization.

-- We don't collect any additional medical information about your child. We are asking for your consent to collect only the immunization history.

-- Once your child's doctor returns the form to us, we remove all names before reporting the information to the Centers for Disease Control and Prevention. When the data are used by CDC and other researchers, they have no way of knowing you or your child participated in the survey.

-- In order to collect complete data, we need information from both you and your doctor. The success of this survey depends on the voluntary cooperation of thousands of concerned households (like yours).

-- Your household represents many others in your area because of the scientific process to randomly select telephone numbers. We hope that you will choose to participate because your household cannot be replaced.

Why contact my doctor? Why give consent?

The information you've provided is very helpful and we appreciate your cooperation; however, to get the most accurate vaccination history, we need to contact your healthcare provider. They will be able to confirm the dates and specific types of each vaccination.

-- The National Immunization Survey has been conducted since 1994. Each year we receive immunization histories from over 20,000 doctors and clinics; in fact, your doctor may have already taken part.

-- The National Immunization Survey is the primary source of vaccination data about preschool aged children in our country. Information collected helps to identify communities where additional resources may be needed for vaccination programs.

-- Because vaccinations play an important role in reducing and eliminating childhood diseases, we need dependable, up to date statistics (from this study). Public health agencies in your area rely on this information when making decisions and evaluating health care programs in your area.

FAQs

I'm not comfortable with that/I don't want to give you my child's name.

-- I understand your concern. The only reason we request your child's name is so that doctor can locate the child's vaccination records. Confidentiality is mandated by law and I can assure you that the Centers for Disease Control and Prevention will only receive the immunization information. We remove all names from the immunization information so that neither you nor the child will be identified as a participant.

Why do you need the child's name?

-- In order to locate the vaccination information for the child, the medical practice or clinic needs the child's name. This is the only reason we are asking for the child's name.

-- Confidentiality is mandated by law and I can assure you that the Centers for Disease Control and Prevention will only receive the immunization information. We remove all names from the immunization information so that neither you nor the child will be identified as a participant.

-- The U.S. Public Health Service Act requires that identifying information (such as names) cannot be associated with the information you and your doctor provide. Once information is gathered, names are separated from the data and are not used again.

FAQs

I'm not comfortable with that:

--I understand your concern (sir/ma'am). Let me explain what happens. With your permission, we'll send a letter of consent and an immunization history form to your health care provider. The form shows the names of vaccinations (like a shot card), and they will fill in the specific type and date for each immunization. Once the form is returned, all identifiable information is separated from the immunization information. Neither you nor your child will be identified as a participant in the National Immunization Survey.

-- We don't collect any additional medical information about your child. We are asking for your consent to collect only the immunization history.

I don't want you to contact my doctor:

NO (ONLY CHOOSE THIS WHEN YOU HAVE MADE ALL APPROPRIATE AVERSION ATTEMPTS).. 2   GO TO SECT_D_TERM

D7G_X   Sometimes to get a complete record of your child(ren)'s vaccinations it would be helpful to contact your local immunization registry. This registry has information on children's vaccinations. The information we collect will be about your child(ren)'s vaccinations only.

Do we have your permission to contact your local immunization registry, give them basic information that identifies your child, and request that information relevant to your child(ren)'s immunization history be sent to the [IF PUERTO RICO, DISPLAY: "Puerto Rico Department of Health and the"] Centers for Disease Control and Prevention or its contractors for study purposes only?

WHAT IS A REGISTRY?
Immunization registries are confidential, population-based, computerized information systems that attempt to collect vaccination data about all children in a geographic area.

WHY DO YOU NEED TO CONTACT A REGISTRY?
Vaccination information from doctors and clinics sometimes is not complete or available. So, in order to get the most complete information possible about children's vaccinations, we also need to contact local registries to collect vaccination information.

DIDN'T YOU ALREADY CONTACT THE REGISTRY TO GET MY PHONE NUMBER? WHY ARE YOU ASKING FOR PERMISSION NOW?

The registry only provided the telephone numbers of eligible children. We will only be able to access your child(ren)'s vaccination information from the registry with your consent.

D9D2ANEW   I'm calling on behalf of the [IF PUERTO RICO, DISPLAY: "Puerto Rico Department of Health and the"] Centers for Disease Control and Prevention. We talked with [FILL: NAME FROM D9A-D9C] and collected immunization and provider information for [NAME OF ELIGIBLE CHILD(REN) FROM D8A-D8C WHERE D9D=2]. We understand that you could authorize the release of immunization information for [NAME OF ELIGIBLE CHILD(REN) FROM D8A-D8C WHERE D9D=2].

Before we continue, I'd like you to know that taking part in this survey is voluntary. You may choose not to answer any questions you don't wish to answer, or end the interview at any time with no impact on the benefits you may receive. We are required by Federal laws to develop and follow strict procedures to protect your information and use your answers only for statistical analyses. This call will be recorded or monitored. I'd like to continue now unless you have any questions.
